

WiFi WATER SENSOR INSTRUCTION

Thanks for
Choosing our WiFi Smart Home Sensors

Product Configuration

Specifications

Battery: CR2-3V x 1
Standby current: 1.1uA
Alarm current: 100mA-110mA
Standby time: 5 years
Battery Life: 2500 times trigger(1 year if trigger 7 times per day, 2 years if trigger 3 times per day)
Wireless type: 2.4GHz
Wireless standard: IEEE 802.11b/g/n
Wireless range: 45M
Operating Temperature: 0℃ ~ 40℃ (32°F ~ 104°F)
Operating Humidity: 20% ~ 85%
Storage Temperature: 0℃ ~ 60℃ (32°F ~ 140°F)
Storage Humidity: 0% ~ 90%
Size: 68mm x 68mm x 34mm

Smart Life

LED State

Device Status	LED State
Smart Wi-Fi	Indicator flashes quickly

Push notification

- Open/close push notification

Remove device

- Restore default settings; Delete and add the device again to clear the record by APP.

Make Your Home Smarter

Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter
